CAPABILITIES STATEMENT

COMPANY OVERVIEW

MBEC Global is a small disadvantaged business (SDB) which provides rapid deployment of personnel, supplies, and materials to commercial entities, international organizations, the U.S Government, and its contractors around the world. MBEC Global supports clients with staffing, recruiting, transportation, maintenance, project management, housing, and procurement of goods and services. Our international expertise working in remote, dangerous environments, and our rapid deployments and execution in those areas have enabled us to become a go-to service provider for our clients.

CORE COMPETENCIES

Rapid Personnel Deployment: MBEC Global recruits, vets, clears, and rapidly deploys skilled professionals to some of the most austere environments in the world.

Logistical Support

We have assisted governments, international organizations, and the private sector with transportation, supply chain management, and warehousing.

Project Management

We rely on top managers, expert professionals and strategic partners in all parts of the globe to accomplish our goals and get the job done quickly and cost-effectively.

PAST PERFORMANCE

MBEC Global (MG) has vast experience in contingency operations such as military operations, major sporting events, and natural disasters.

PDFTs Afghanistan

Our most recent project is providing electricians for Power Distribution Field Teams in support of the US Military throughout southern Afghanistan. MG began this work as a subcontractor to DynCorp in May of 2011. Soon thereafter, DynCorp doubled the value of our contract, and in 2012 extended our contract, doubling its value once

again. We recruit, verify electrical licenses, help candidates navigate medical and security clearance, and to date have deployed hundreds of electricians into theater.

US LOGCAP

Since 2004 MG has been involved with the US LOGCAP contract. We are also involved in the procurement of materials and equipment for contractors throughout the Middle East and Central Asia.

CERTIFICATIONS

- Small Disadvantaged Business Owned
- Hub-Zone
